THE SIGNATURE

One drawn object. Nothing invented.

The bend is the first turn of a 400 m track, to scale.

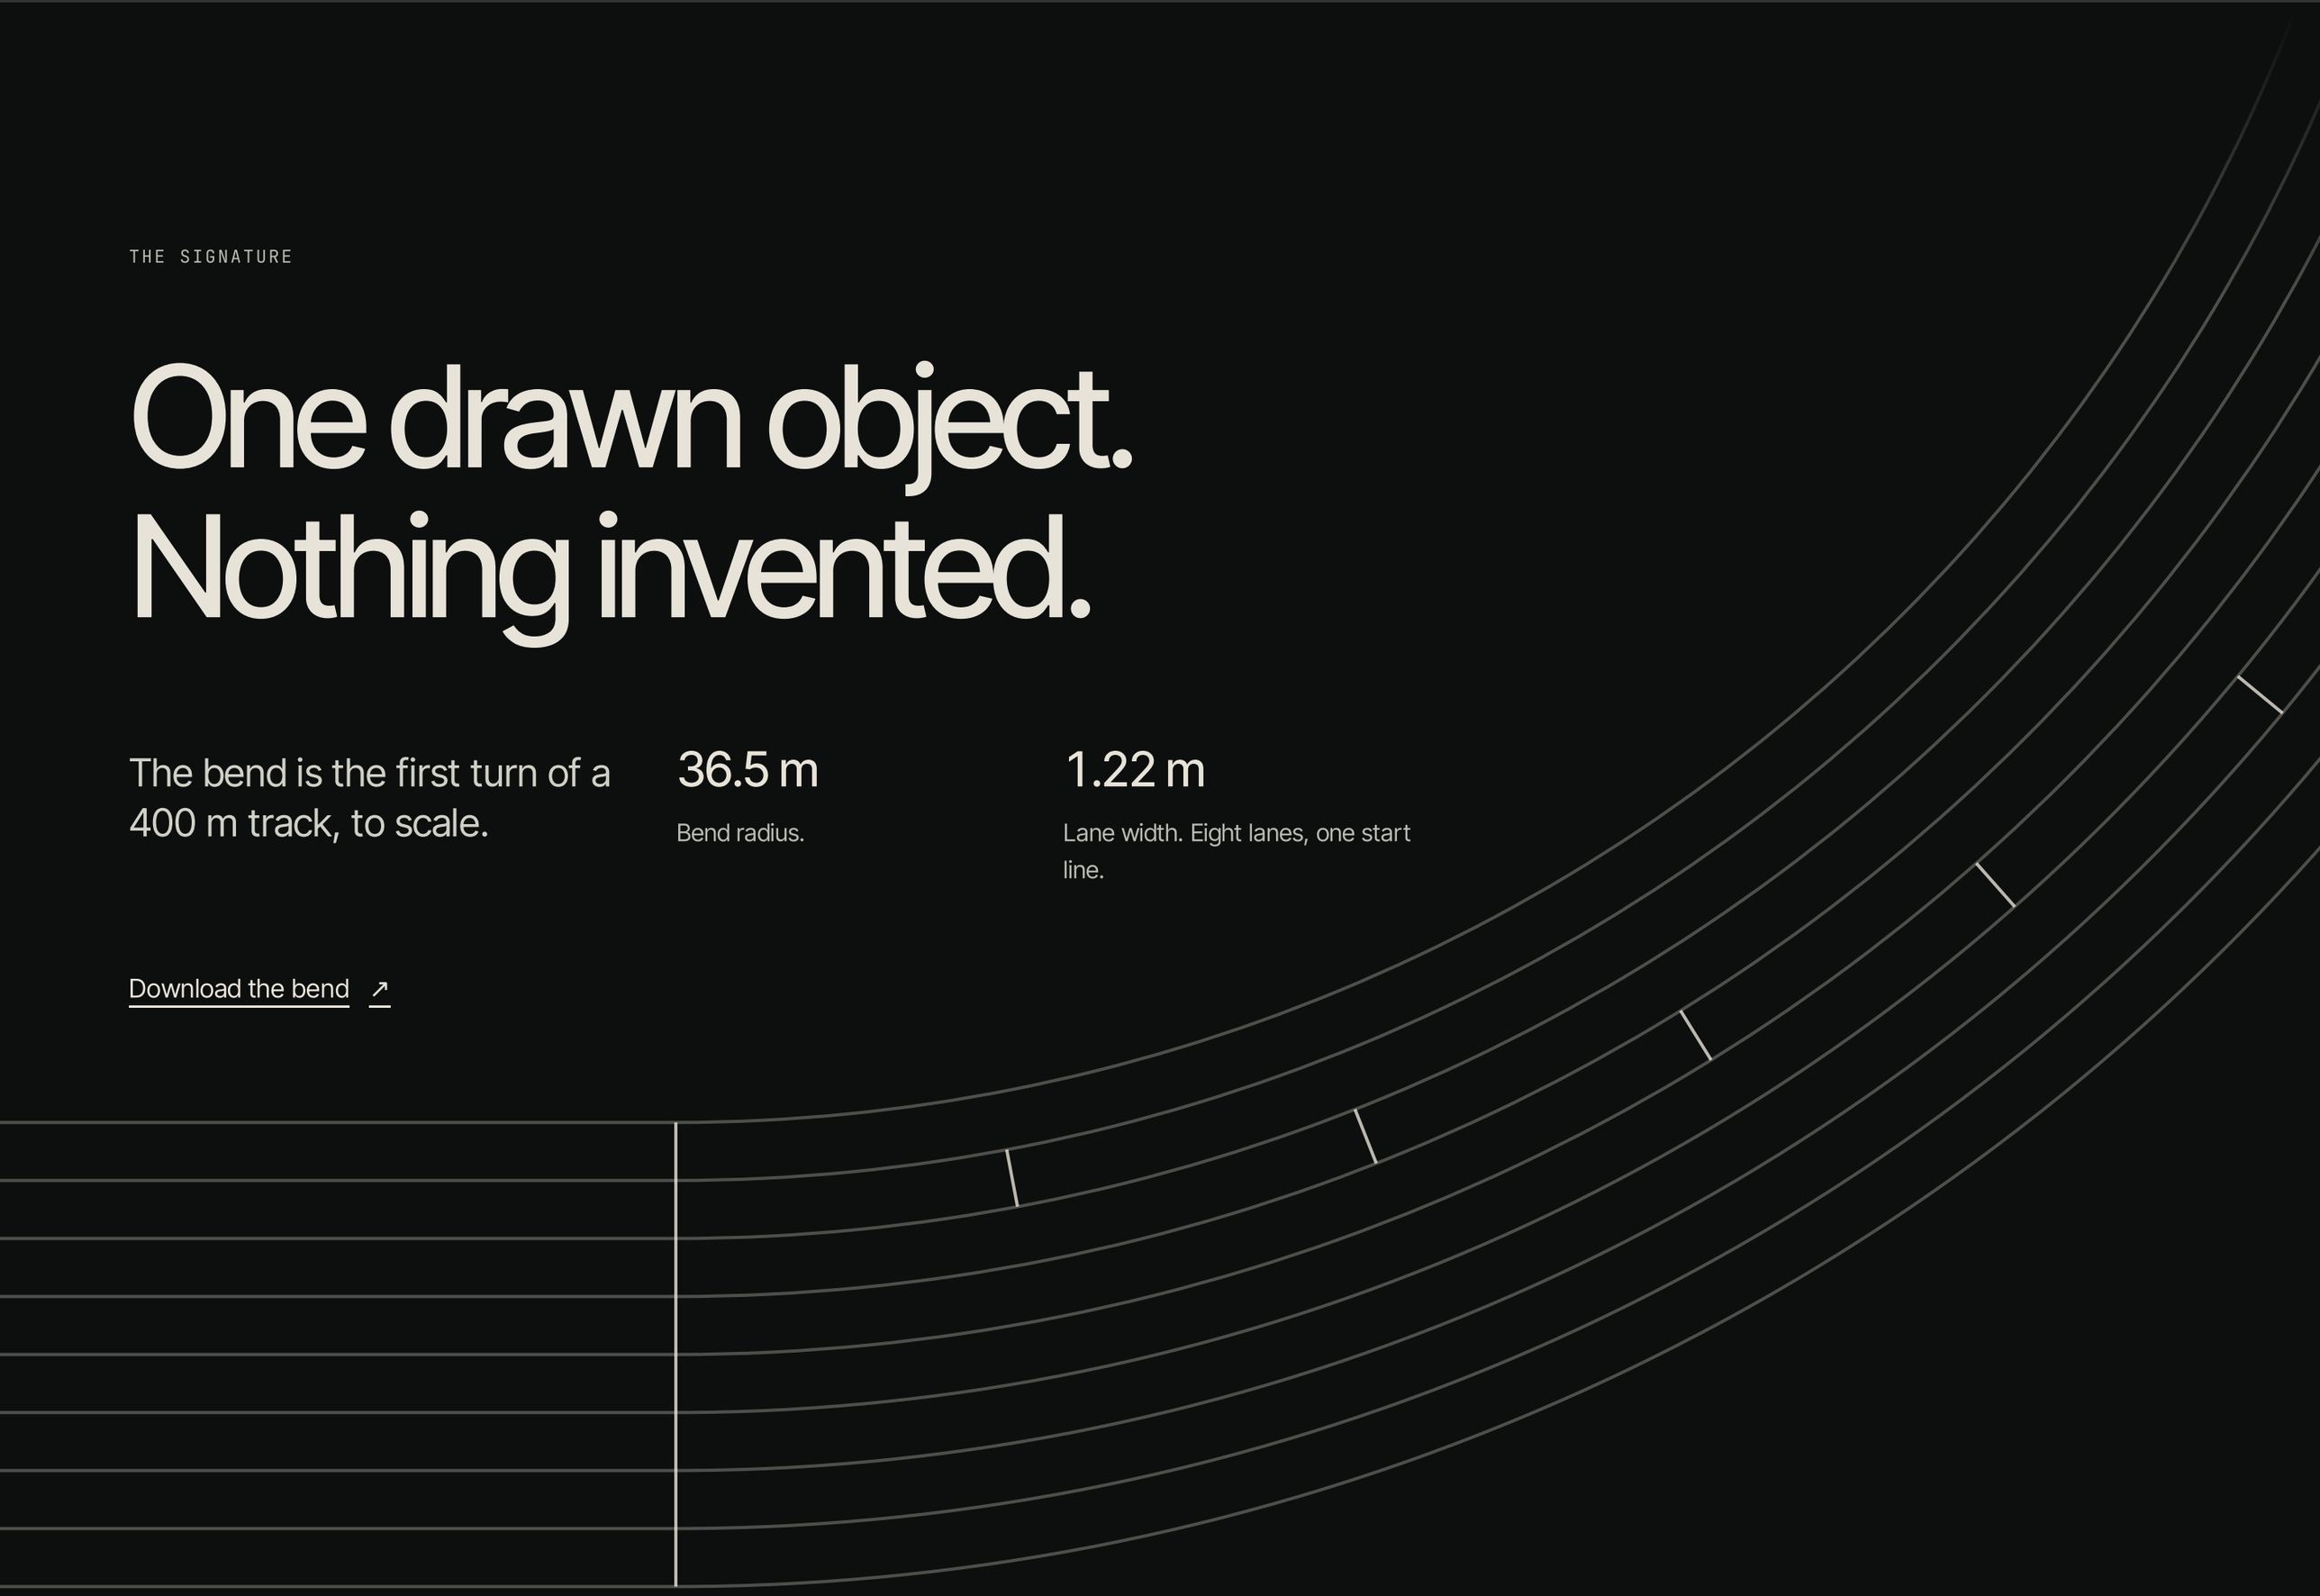

36.5 m

Bend radius.

1.22 m

Lane width. Eight lanes, one start line.

HOW WE DECIDE

Ask these in order.

01	What is the real object?	A pattern is what you reach for before you have found it. The track was already in the photograph.
02	Can you name every number?	If a line can’t say what it measures, it is decoration. Take the geometry from the real thing.
03	What does it line up with?	Everything sits on an edge something else already uses.
04	What does it replace?	If nothing comes out, nothing goes in.
05	Is it one thing?	One accessory per view. One bend per piece.
06	Is it found, not announced?	Quiet from across the room. Clear once you notice it. Lines never cross type.
07	Does the photograph still have the room?	The photograph is the luxury. Everything else is the room that receives it.

THE MARK

The emblem, alone.

BONE ON BLACK SVG PNG

INK ON BONE SVG PNG

ON CLOTH, FOR AVATARS JPG

ALONE

No name beside it. No line under it.

In text, write Speed & Form. The apps are Speed & Form: Running and Speed & Form: Strength. The practice is FORM. On Instagram, @form.practice.

SPACE

Half its height, clear, on every side.

Never under 62px wide on a screen.

COLOR

Bone on dark. Ink on paper.

On a photograph, place it where the picture is quiet.

Not mirrored.

House mark: bone or ink. Running has its own lime.

Not stretched.

Not with a name beside it.

COLOR

Black, bone and ink.

Black

`#0d0f0e`

The room.

Bone

`#e8e3d9`

Type on black. Paper.

Ink

`#161916`

Type on bone.

Quiet

`#b8bbb2 on black · #5e625b on bone`

Second voice.

No accent color. Emphasis comes from size, space and light. Running and Labs keep lime `#c9ff36`. Strength keeps bronze.

TYPE

Inter Tight says what it means.

JETBRAINS MONO SAYS WHAT HAPPENED. 8 WEEKS · $1,200 · 6 MILES

DISPLAY	Weight 450. Tracking −0.05em.	Whole sentences that end in periods. Sentence case, never all caps.
BODY	17 to 23px. Line height 1.5.	45 to 65 characters a line.
MONO	Anything measured.	Prices, dates, distances, weeks and small labels. 11 to 14px.
MARKS	Periods and commas.	No dashes for drama. No exclamation points.

Both are free: Inter Tight and JetBrains Mono.

LIGHT

Lit, not printed.

RULE	The photograph keeps the brightest point.	On black, a headline starts at full strength and falls to 60% by its far end. The emblem does the same.
STAYS FULL	Anything you read to decide.	Body copy, prices, dates, links.
NEVER	Effects on letters.	No texture, bevel, glow or shadow. Richness comes from real material, photographed.

PHOTOGRAPHY

Real athletes.
Real sessions.
Real Miami.

LOOK	Black and white. One light.	Close enough to see the work. Black stays black.
NEVER	No stock. No generated people.	Nobody is retouched into someone else.
USE	Ask for the frame.	These are real people. I send photographs for each use, with credit to Speed & Form.

VOICE

Say the real thing, once.

LIKE THIS

Run farther. Feel smoother. Get stronger.

You can hit the pace. Can you hold it?

Come for the miles. Stay for the morning.

NOT LIKE THIS

~~Unlock your full athletic potential.~~

~~Race-pace ownership through dose architecture.~~

~~We believe in a holistic approach to performance.~~

WHO	I, when it is Brice.	Never “we believe”.
LENGTH	The shortest sentence that is true.	Lead with what the runner wants. Method comes later.
TONE	No hype.	Say what you saw. Would a coach say it out loud, standing next to the athlete?

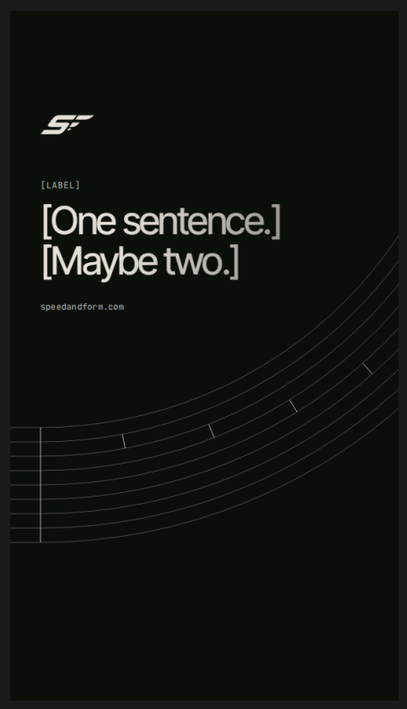

FILM AND SOCIAL

Start close, in the dark.

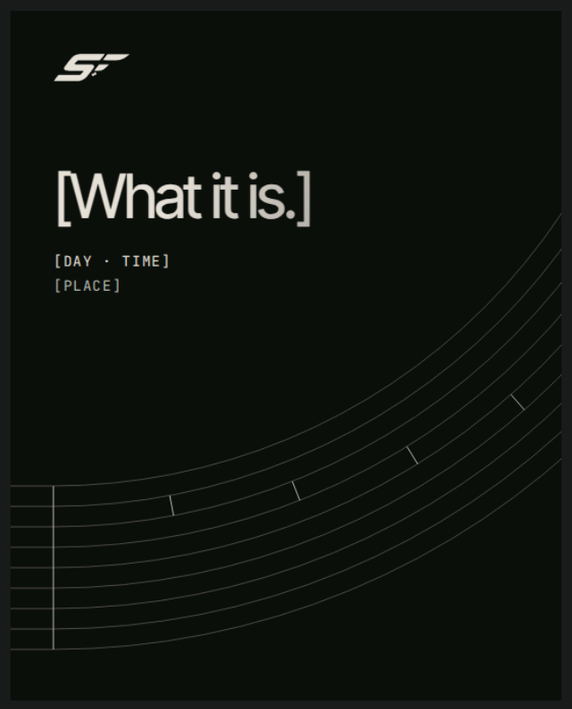

OPEN	Let one light find the subject.	Do not lift the shadows to show more.
MARK	Late, small, at half strength.	On something real. Never a logo sting.
TITLES	Bone, never pure white.	Never the brightest thing in the frame.
STORY	9:16. One sentence.	Keep type out of the top 14% and the bottom 20%.
POST	4:5. A photograph or a sentence.	Not both fighting for the frame.
AVATAR	The emblem on cloth.	One file, every platform.

IN USE

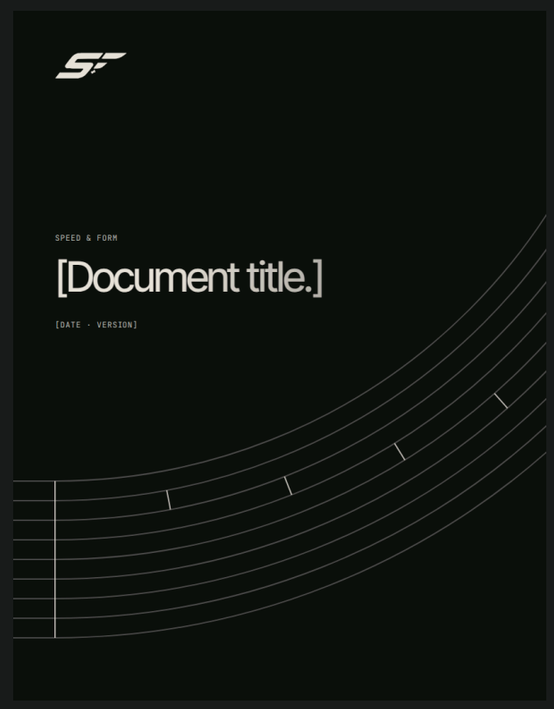

The bend goes where the work goes.

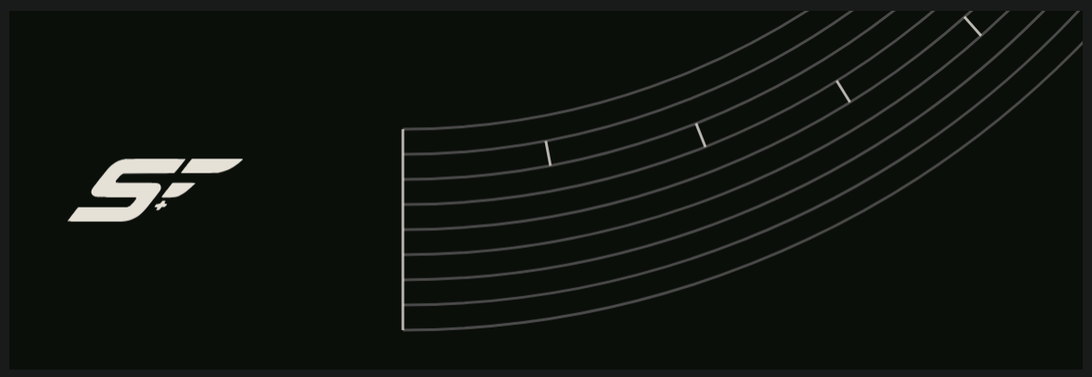

STORY · 9:16 HTML PNG

INVITE OR POST · 4:5 HTML PNG

DOCUMENT COVER · LETTER HTML

EMAIL HEADER · 600 × 200 PNG HTML

One bend per piece. It comes in straight from the left and rises on the right, because runners turn left. Never mirror it. Type never sits on the lanes.
